One Platform. The full enforcement picture.

See the information behind every case.

Connect licensee records, complaints, inspections, investigations, evidence, violations, and enforcement activity in one place.

Keep cases moving with control.

Assign investigators, route cases through your chain of command, document field activity, maintain case history, and coordinate joint investigations.

Build complete, defensible case records.

Track evidence and chain of custody, maintain activity history, manage case sensitivity, and prepare case files for administrative or criminal proceedings.
