Power Up Your Alcoholic Beverage Control Agency With Gov2Biz

With a deep fitment with the nuances of the Alcohol Beverage Control, Gov2Biz SaaS platform allows all the departments of ABC regulatory agencies to run on a single platform, enabling them to run as one agency rather than individual departments. Gov2Biz's unified platform structure brings efficiencies throughout the licensing and regulation lifecycle, allowing ABC agencies to fulfil their mission.

- 
Licensing and Permitting
 A full suite including online applications, payments with out of box support for 3 tier logic, approvals, renewals, M&As and amendments all in one place.
- 
Label Registration
 A complete function set for managing online label application, TTB COLA validations, approvals and scenarios like alternating proprietorships and contract brewing.
- 
Excise Tax
 A full-service suite for online reporting, tax calculations, payments, backend review, audit and financial accounting including reminders, cut-off enforcement, time-based discounts, etc.
- 
Enforcement
 A law enforcement grade case management system with online complaints, investigations, watchlists, evidence management, case flow, penalties, settlements, suspensions and more.
- 
Inspections
 Onsite and remote inspection suite for validating compliance to rules and statutes, with follow-up inspections, detailed reporting, and risk-based inspection capabilities.
- 
Legal Case Management
 A comprehensive legal case management system for administrative, criminal, and civil cases with complete case flow, adjudications, appeals, settlements, FOIA and more.

Taxation
 Full service tax management with online reporting, payments, assessment, collections, settlements and audits.

Legal Case Management
 Centralized civil, criminal and administrative case management including appeals, settlements and expungements.

Licensing and Permitting
 Online applications, payments, tracking, renewals, amendments, real-time processing, workflows, background checks and approvals.

Inspections
 Scheduling and performance of onsite and remote inspection workflows with risk management, penalties, settlements.

Enforcement
 Robust investigative case management with investigations, evidence, penalties, settlements and online complaints.

Why Gov2Biz?

AI Platform for Governments

With a deep understanding of licensing and regulatory processes, a government-only focus and industry-leading AI technology, Gov2Biz is a trusted partner for governments across the United States.

One Agency, One Platform

With robust features including online public and staff portals, role-based access, powerful workflows, searches, reporting, automatic notifications and more, Gov2Biz has all the tools you need to run your entire agency in one place.

Hyper-focused on You

At Gov2Biz, we have chiselled our processes to be lean, reliable, and practical for government agencies. Our no-fluff implementation model, fanatical customer support, collaborative product innovation, real-life-ready features are all purpose-built to help you succeed.

Born in the Cloud

Gov2Biz is an AWS Native SaaS, making it a perfect fit for your Cloud-first and SaaS-first strategies vetted against AWS's rigorous technical standards of scalability, reliability, performance, resilience and compliance. Gov2Biz is an AWS Public Sector Partner & Advanced Technology Partner.

Security and Compliance

Hosted on AWS GovCloud, an AWS region designed to host sensitive data, regulated workloads, and address the most stringent U.S. government security and compliance requirements, you can rest assured about security and compliance.
